<b>Total Customer Load Number of Phases</b>	<input type="checkbox"/> Single phase 230V <input type="checkbox"/> Three phase 400V <input type="checkbox"/> Two phase 230/400V <input type="checkbox"/> Two phase 230/460V

By signing this form, you acknowledge and represent that the information provided is true and correct and that the minimum requirements set out for PV systems up to 3.5kW/phase (SWER System) up to 4.6kW/phase (on a Single Phase) and 5kW/phase (on a three Phase System) have been met.

- AusNet Services accepts no responsibility for any costs if a customer installs an Embedded Generator prior to receiving authorisation.
- Other charges associated with metering alterations, approvals or commissioning and testing are not included in pre-approval charge.
- If any adverse impacts to the network are identified, capacity of the system proposed might need to be reduced, connection may be refused, or a financial contribution may be required to upgrade the electricity network.
- Inverter Energy Systems that do not meet the minimum requirements will not be accepted, and when identified will be required to disconnect until modified to comply.
