

Ausnet Services - Embedded Generator Pre-Approval Form										
Embedded Generation Type				Hydro Energy Storage	Other energy so	Other energy source				
				15kVA – Above am attached	4.6kVA- 15kVA 15kVA – Above Single Line Diagram attached					
Customer Phases 1 2 3			3		1 2 3					
INVOICING DETAILS - Invoice and Approval / Rejection letter will be sent to company below										
COMPANY NAME C			СО	MPANY CONTACT	COMPANY ABN:	:				
COMPANY ADDRESS:				POST CODE:						
SI	ECTION 1: INSTA	LLATION DE	AIL	.S			1			
Installer Company Name					nstaller Phone Number					
Installer Company Address					Installer email address					
Is an existing Embedded Generator Installed at this premise				Yes	□ No	No				
Total Installed Capacity (Total rating of, all solar panels, all turbines, or all other energy sources including existing systems if applicable)				kVA	Inverter Power Rating (1 hour or continuous rating)		_		kVA	
Installed Capacity Per Phase (mark N/A for phases not available)				Phase A:kVA	Phase B:	kVA	Phase	e C:	kVA	
Inverter Manufacturer					Inverter Model Name					
Export Limit (if applicable) maximum amount to be exported into the electricity gridkVA per phase										
SECTION 2: INSTALLATION COMPLIANCE (to be completed and signed by the installer)										
Is the Inverter an 'Approved' Inverter								list		
Inverter Number of Phases				Single phase 230V Three phase 400V Two phase 230/400V Two phase 230/460V						
Total Customer Load Number of Phases				Single phase 230V Three phase 400V Two phase 230/400V Two phase 230/460V						
By signing this form, you acknowledge and represent that the information provided is true and correct and that the minimum requirements set out for PV systems up to 3.5kW/phase (SWER System) up to 4.6kW/phase (on a Single Phase) and 5kW/phase (on a three Phase System) have been met. • AusNet Services accepts no responsibility for any costs if a customer installs an Embedded Generator prior to receiving authorisation.										
	 Advised Services accepts no responsibility for any costs if a customer installs an Embedded Generator prior to receiving authorisation. Other charges associated with metering alterations, approvals or commissioning and testing are not included in pre-approval charge. 									
If any adverse impacts to the network are identified, capacity of the system proposed might need to reduced, connection may be refused, or a										
	financial contribution may be required to upgrade the electricity network. Inverter Energy Systems that do not meet the minimum requirements will not be accepted, and when identified will be required to disconnect until									
	modified to comply. Installer Name:* Installer Accreditation No:*									
Installer Signature:* Date:*										
	Application is valid for 90 days from this date. If not installed within 90 days new application is required.									
SECTION 3: GENERATOR OWNER DETAILS										
	Customer Name*			Customer NMI*(Refer to your electricity bill))	Existir Numb	ng Meter er*			
	Supply Address*			·		•				
	Mailing Address*					Phone	Number*			

PRIVACY STATEMENT: The personal information you provide in this form will be collected by your Distributor for the purpose of connecting your proposed Embedded Generator to the Victorian electricity grid. This information will be used and disclosed by your Distributor in accordance with its privacy processes. You can find more information on your Distributor's privacy processes on their website.
