

Special connection request

For enquiries please phone (02) 6293 5749 or return this form by email to networkservicing@actewagl.com.au All systems must be approved by ActewAGL and all relevant authorities prior to connection to the ActewAGL network.

Customer/proponent de	etails						
Customer or business nam	ne						
Unit number	Floor	Street number	Street	name			
Block	Section	Suburb		State	Postcode		
National meter identifier (NMI) Check this box if you	Contact phone	ial connection request		ously submitted.			
Work site address							
As per customer/proponer	nt details listed above						
Location descriptor or bus	iness name						
Unit number	Floor	Street number	Street	name			
Block	Section	Suburb		State	Postcode		
Generator details							
Manufacturer			Mode		Series		
Number of generator units (or inverters)				Standard net metered PV Solar inverter system +			
Total installation nominal	rating ^	k\	W				
Inverter details (where	applicable)						
DC power supplied to each inverter Over frequen			ency setting		Over voltage setting		
Phases Under frequ			uency setting [Under voltage setting		
Solar panel details (whe	ere applicable)			Maria An			
Total number of panels		Rating per p	oanel	W	/atts Panels per inverter		
Panel manufacturer Panel model			ı				
If different inverters have o	different numbers of	panels, please provide d	letails as an at	tachment.			
Contractor/installer info	ormation						
Contractor/installer			Phone				
Business name			Email				
Electrical licence number			Clean	Clean Energy Council (CEC) accreditation number*			

[^] For Solar PV, enter the sum of the panel ratings. For all other generator units enter the sum of the generator units' ratings

⁺ For all other embedded generator special connection requests, please complete the additional generator details section overleaf

^{*}Applicable for inverter-based installations.
