## Terms and conditions

If you have requested an expedited connection in this form, and ActewAGL is satisfied that your connection application is for a basic To the applicant connection service that falls within the terms of ActewAGL's model standing offer for basic connection services, then the connection contract will commence immediately on the date ActewAGL receives this application. If you have not requested an expedited connection, we will provide you with a connection offer within 20 business days. A connection contract will not be formed between you and us until the date that you accept that offer. Note: ActewAGL's model standing offer for basic connection services and information about what is a basic connection service is available at actewagl.com.au If I have chosen to expedite my connection application I certify that the proposed connection service is a basic connection service in To ActewAGL accordance with the ActewAGL Service and Installation Rules and ActewAGL's model standing offer for basic connection services. ActewAGL will levy a charge to the signatory or connection applicant for non-compliance with the ActewAGL Service and Installation Important notice Rules and model standing offer for basic connection services, or for installation defects due to obstructed access or the site not being ready for the requested connection service work. All charges are as per ActewAGL Schedule of Electricity Network Charges and the model standing offer for basic connection services. If ActewAGL reasonably needs to make a site inspection in order to determine the nature of a connection service sought by a

connection applicant, we may charge our reasonable expenses to the connection applicant.
